

## **COVID-19 protocol**

Our concern for you is top priority. It goes without saying that we adhere to applicable health regulations and follow specific instructions related to our profession. That is why we use a COVID-19 protocol.

This means that we - and our guests too - adhere to the basic rules, such as wearing a mask, washing and sanitizing hands regularly and keeping a distance of 1.5 meters. In addition to the regular cleaning activities, we perform extra disinfection of (bath) rooms and common areas and air the areas several times a day.

We use temporarily modified cancellation conditions. If you are unable to travel to Le Villard due to travel restrictions imposed by your government or the French authorities, you can reschedule your stay to another date at no cost.
